

CAPM - Certified Associate in Project Management

SecureNinja's CAPM training and certification boot camp in Washington, DC and San Diego, CA is designed for those with less project experience. PMI's Certified Associate in Project Management (CAPM)[®] is a valuable entry-level certification for project practitioners. The CAPM[®] demonstrates your understanding of the fundamental knowledge, terminology, and processes of effective project management. Whether you're new to project management, changing careers, or already serving as a subject matter expert on project teams, the CAPM can get your career on the right path or take it to the next level.

Topics Covered

- The Process Of Project Management
- The Framework Of Project Management
- Integration Management
- Scope Management
- Time Management
- Cost Management
- Quality Management
- Human Resources Management
- Communications Management
- Risk Management
- Procurement Management
- Professional Responsibility

Who Would Benefit

If you're a less experienced project manager looking to demonstrate your commitment to project management, improve your ability to manage larger projects and earn additional responsibility, and stand out to potential employers, the CAPM certification is right for you.

Pre-requisites

A secondary diploma (high school or the global equivalent) AND At least 1,500 hours of experience OR 23 hours of project management education.
