

CISSP - Certified Information Systems Security Professional

Get Trained By The Worlds Best CISSP Instructors NOW only at SecureNinja!

The CISSP is an internationally recognized certification for information security professionals. Offered by the International Information Systems Security Certification Consortium, (ISC)2, the CISSP certification is both an objective measure of excellence and a globally recognized standard of achievement.

SecureNinja's CISSP bootcamp is the highest quality CISSP exam review available today. It is a comprehensive course discussing the entire Common Body of Knowledge relating to Information Systems Security, as determined by ISC(2). The bootcamp is designed to help attendees prepare for the certification exam, as well as serve as a learning tool for concepts and topics related to all aspects of Information Systems Security.

Our course contains "checkpoints" which help you self-evaluate your progress. You will know which key concepts you have a solid understanding of, and which of the CISSP domains you need to spend more time reviewing. SecureNinja's expert instructors will be there every step of the way where you have personal access to the industry's leading authorities on CISSP training and certification. You will benefit from their extensive knowledge base as they teach you tips and tricks for exam passing success. You will not only receive the knowledge to pass the exam but come back to the job with real-world skills you can apply right away, thus maximizing the return on your training investment.

In addition, all SecureNinja CISSP students will receive a PAID account to the CCCURE CISSP Prep portal with over 2000+ up to date preparatory questions.

SecureNinja's (ISC)2 CISSP training and certification boot camp is available in day or weekend sessions in Alexandria, VA or boot camp only options in Dulles, VA and San Diego, CA. We also offer convenient Live Online delivery anywhere in the world as well as customized course offerings for groups.

DoD Directive 8570.1-M- CISSP meets Government and DoD agencies compliance with Federal Information Security Management Act (FISMA) and DoD Directive 8570.1-M

Who Would Benefit

This course is primarily for Information Technology Security Professionals who wish to not only prepare to pass the CISSP Exam; but also utilize this course as a launching point for other advanced security certifications such as CISA, CISM, CEH, CHFI, and related courses.

Exam Information

ISC(2) now uses Computerized Adaptive Testing or CAT testing for all English CISSP exams worldwide. CAT testing allows a more precise grading scale and delivers a uniquely tailored exam to each individual. Unlike fixed-form, linear exams, adaptive testing delivers items based on the demonstrated ability of a candidate during the exam.

Exam ISC(2) CISSP Exam

Duration 3 Hours

Questions Maximum of 150

Course Length 40 Hours

Next Steps

1. Certified Ethical Hacker (CEH)
