

Cloud and Virtualization Essentials

Course Description

This combined training and certification boot camp includes both the Cloud Computing and the Virtualization Essentials Courses back to back in a 4-Day period.

SecureNinja's Cloud Essentials Course™ in Washington, DC and San Diego, CA is a 2-day, interactive, classroom-based learning experience. This introductory course provides a balanced curriculum and addresses the business and technical perspectives of cloud computing. It will also explain how to adopt, operate, and govern the cloud. The course enables participants to successfully complete the associated CompTIA® Cloud Essentials Exam to become Cloud Essentials Certified. In addition, the course complements the Virtualization Essentials course, which they can do either before or after they have taken the Cloud Essentials course.

- This course has been designated as CompTIA Approved Quality Content
- Cloud Essentials courseware is tested by ProCert Lab
- Cloud Essentials Courseware is accredited by the Cloud Credential Council.

SecureNinja's Virtualization Essentials Course™ is a 2-day, interactive, classroom-based learning experience. The course provides a balanced curriculum and addresses the business perspective, the technical organization, and operating and governing virtualization. The course enables participants to successfully complete the associated Virtualization Essentials exam to become a Virtualization Essentials Professional (VEP) with the Cloud Credential Council. In addition, this course complements the Cloud Essentials course. The participants can do the Cloud Essentials course either before or after they have taken the Virtualization Essentials course.

Scenario-driven learning has always been one of the key success factors of SecureNinja courses because it puts participants in the right mindset to apply the principles in a realistic setting. The role-play activities included in this course present a real-world connection, using situations that can occur in the day-to-day life of participants. Moreover, interactivities such as brainstorming, quizzes, and discussions add to the interactive nature of these courses.
