COBIT 5 Foundation

SecureNinja's The COBIT 5® Foundation training and certification boot camp in Washington, DC and San Diego, CA is a 3-day interactive, classroom-based learning experience. Participants learn about the need for an IT control framework and how COBIT addresses this need by providing a globally accepted IT governance and control framework. This course explains the elements and supporting materials of the COBIT framework using a logical and example-driven approach for everyone interested in obtaining Foundation-level knowledge of COBIT.

Recommended Audience

A wide range of business managers, IT management consultants, IT governance professionals, and auditors who wish to gain a better understanding of COBIT and what it can provide to their organization.

Topics covered

1. Course Introduction
2. Why COBIT
3. COBIT: An Introduction
4. The COBIT Cube
5. The COBIT Components Part I
6. The COBIT Components Part II
7. Assurance Guidance
8. COBIT Resources
9. Inter-Relationships with other Frameworks, Standards and Regulations
10. Exam Preparation Guide
11. Self Study
12. Exam
13. Closure and Feedback

Learning Objectives

At the end of this course, participants will gain competencies in:

- How IT management issues are affecting organizations
- The need for an effective framework to govern and manage enterprise IT
- How COBIT meets the requirement for an IT governance framework
- How COBIT is used with other standards and best practices
- The functions that COBIT provides and the benefits of using COBIT
- The COBIT framework and all the components of COBIT
- How to apply COBIT in a practical situation

Prerequisites

There are no formal prerequisites; it is recommended that participants have experience in the IT governance domain.
