

Microsoft 365 Certified: Modern Desktop Administrator Associate

Course Description

In SecureNinja's Microsoft Modern Desktop Administrator Associate certification program, students will gain the knowledge and skills to validate their credentials as a desktop administrator. Students who complete this program will earn the official, industry-recognized Microsoft 365 Certified: Modern Desktop Administrator Associate certification.

Modern Desktop Administrators deploy, configure, secure, manage and monitor devices and client applications in an enterprise environment. They typically collaborate with the Microsoft 365 Enterprise Administrator to design and implement a device strategy that meets the business needs of a modern organization.
