About Secure Ninja - Team

SecureNinja is a leader in Information Security and IT training and certification and has been providing businesses with programs that answer regulatory needs and skills gaps for over 9 years. Our training programs educate and certify your employees in the areas that are critical to your operations. With certified professionals on staff, your company demonstrates that it is seriously engaged in producing ROI on technology investments and handling compliance requirements competently. Our programs create solutions for the DOD and integrator community by answering the certification needs of the 8570.01-M mandate.

Our services/consulting division specializes in governance, risk and compliance programs for government agencies including information assurance, IV&V security assessments, and cyber-security solutions.
