

Government & DoD 8140.01 Training & Certification

The DoD 8570.01-M Has Been Replaced By The DoD 8140.01

On August 11th, 2015 the Department of Defense released the Cyberspace Workforce Management Directive, known as DoD 8140.01, for anyone involved with the DoD cyberspace workforce. This new directive is designed as a replacement for the DoD 8570.01-M

The new DoD 8140.01 directive further expands on established policies to unify the cybersecurity workforce within the DoD, and establish specific responsibilities, qualifications and training requirements for various cyber workforce roles.

What was the DoD 8570.01-M?

The DoD 8570.1-M Directive is also known as the Information Assurance Workforce Improvement Program. The Department of Defense passed a regulation stating that all Information Assurance personnel must become compliant with the mandated IT and Security certification standards within a certain time frame. There are various levels of compliance based on the level of job function. The most common certifications included in the DoD Directive 8570.01 include A+, Network+, Security+, CEH and CISSP.

SecureNinja has historically offered training classes that help you prepare for and become compliant with the DoD 8570.01-M Directive, Information Assurance certification.

Since no specific training requirements for DoDD 8140.01 have been released, 8570.01-M is still in effect as the Information Assurance (IA) Workforce Improvement Program manual.

8570.01-M Computing Environment Level Requirements:

In addition to the baseline IA certification requirement for their level listed above the DoD 8570.1 mandate states IATs with privileged access must obtain appropriate Computing Environment (CE) certifications for the operating system(s) and/or security related tools/devices they support as required by their employing organization. (e. g. Microsoft certifications for Microsoft systems support technicians, Cisco certifications for Cisco technicians, Linux Certifications for Linux technicians or the specific system the IAT is spending most of his or her time supporting) This requirement ensures they can effectively apply IA requirements to their hardware and software systems.

IAT Level I

Microsoft
 MCTS and MCITP: Windows 7 Configuration and Desktop Support Technician

Cisco
 CCNA (Cisco Certified Network Associate)

CompTIA
 Linux+

IAT Level II

Microsoft
 MCITP: 2008 Server Administrator

Cisco
 CCNA (Cisco Certified Network Associate)

CompTIA
 Linux+

Oracle
 Oracle 10G DBA

IAT Level III

Microsoft
 MCITP: 2008 Enterprise & Server Administrator

MCITP: 2008 Server Administrator

Cisco
 CCNP(Cisco Certified Network Professional)

CompTIA
 Linux+

In summary, the Directive's objectives are:

- Establish standards where Information Assurance (IA) personnel obtain a uniform level of competency with regard to DoD information and networks.
- Standardize the minimum skill level for all Information Assurance personnel throughout the Department of Defense.
- Provide qualified IA Workforce members to the soldiers that need them
- Creating a set of formal training requirements and establishment of certification programs
- Increase the knowledge base of every IA Workforce team member through education and / or experience

Training for the DoD Directive 8570

Part of the regulation is that the agency will help pay for training in preparation for the certifications. We are an approved school to offer training for this Directive and we offer regular open enrollment classes in:

- CompTIA A+
- CompTIA Network+
- CompTIA Security+
- CISSP
- Certified Ethical Hacker (CEH)

DoD 8570 Training Pricing Structures

Contact us for more information about group or multiple enrollment training for the DoD 8570 and DoDD 8140.01 certification exams. Group discounted rates are available.

In addition to our open enrollment schedule, we also offer on-site corporate classes for your organization or group.

SecureNinja Computer Training

Business Structure: Small Business (LLC)

- Instye LLC dba SecureNinja

Program Models:

- Accelerated Instructor-led BootCamps
- Instructor-led Evening and Weekend Courses
- Dedicated On-Site Courses
- Client Specific Curriculum
- Live Online Training
- Self-paced e-Learning Online courses

Location:

Washington DC Metro Area (Corporate Office in Alexandria, VA)

Class Size:

Classes average 5-20 attendees

Government Info:

- **CCR Cage Code:** 308C6
- **DUNS #:**16-709-5418
- **EIN:** 20-0161099

NAICS Codes:

- 611410 - Business and Secretarial Schools
- 611420 - Computer Training
- 611519 - Other Technical and Trade Schools
- 611430 - Professional and Management Development Training
- 611710 - Educational Support Services
- 611691 - Exam Preparation and Tutoring

PSC Codes:
