

Online Sensei Series

SecureNinja is pleased to present our newest on-demand video training tool: the Online Sensei Series. These cutting-edge courses and seminars consist of the the same material taught in our classrooms by SecureNinja's award-winning instructors now reformatted for video and capable of being viewed on any internet-enabled desktop computer, laptop, tablet or smartphone.

Now you can have the best training in cybersecurity—anywhere, anytime.

The Online Sensei Series library is continually growing and offers a mix of industry-standard certifications and our unique Advanced Cyber Warrior training.

Why Choose SecureNinja's Online Sensei series

- Train at your own pace with industry recognized, respected and published trainers
- Frequent product refreshes make sure you have the most up to date online materials mapped directly to the certification objectives
- You learn real-world skills in addition to just certification training
- Balance your job with your training
- You save in downtime and lost productivity
- Eliminates travel, lodging and meal costs normally associated with in classroom training
- No weather-related class cancellations
- Training qualifies for CEU credits
- Train anytime, anywhere with high speed internet access
- Train large groups at once in your own office setting
- Corporate Managers - Ask about our volume discounts on multiple licenses

Current online materials map directly with certification objectives and testing standards for 2014!
